

# THANK YOU

I started Double Dribble in 2018 to share the art and music I loved with the world. Throughout the years, my creative endeavors have gone in many different directions, some good and some bad. I am beyond grateful to have friends and supporters like you who have stuck with me from the beginning and through this artistic journey. As a show of my gratitude, I have included a signed print of my new design on the inside of this letter.

Unfold this pamphlet completely, stick it between two of your favorite books overnight, and you should have a clean crisp poster when you wake up!

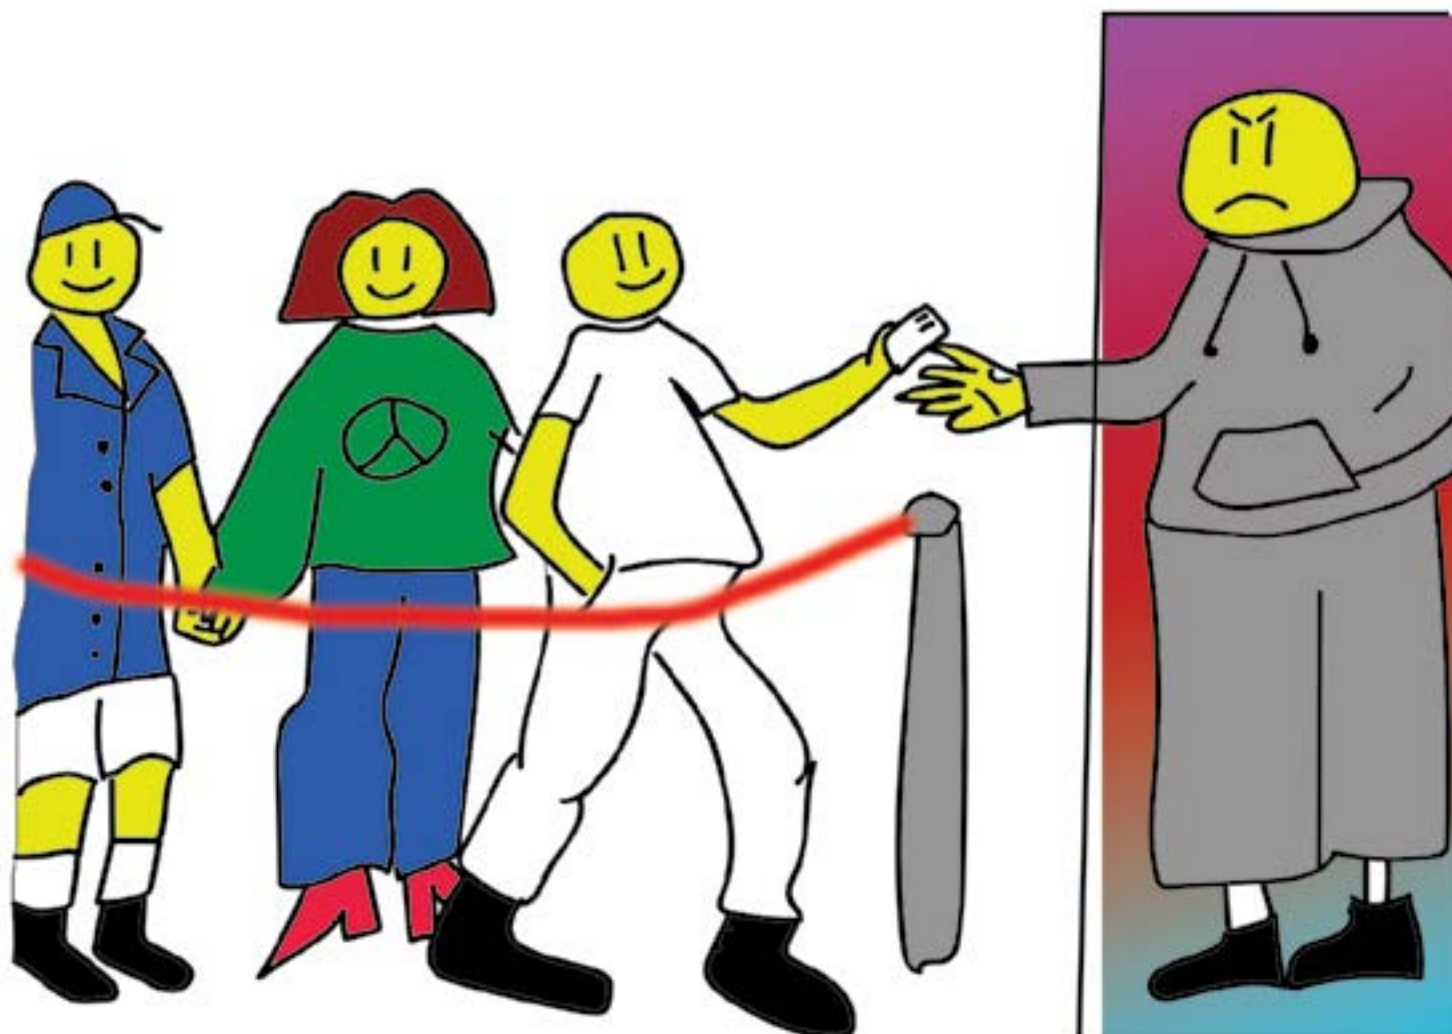

Life's tough but so are you!  
-Christian
